Henry Ijams, Managing Director and Founder of PayStream Advisors
Uncovering the ePayables Opportunity in Your AP Operation

The future of Accounts Payable is paperless, even in the transportation industry. Companies are looking to their operating departments to cut costs—and they see that with the right automation tools, AP can dramatically lower invoice processing costs, reduce erroneous payments, and capture more discounts. Accounts Payable in transportation is rapidly evolving. New technologies, innovative delivery models

AGENDA

and vendor partnerships are indelibly changing the landscape. PayStream's Analyst Outlook briefing summarizes what technology and outsourced services are available where the automation market is heading and which tools are the most effective. Henry Ijams, founder of PayStream Advisors, will share his insights into Purchase to Pay automation from his research reports and consulting assignments. You'll also learn how to evaluate your potential opportunity, the five secrets to building a successful automated AP department, and the evaluating a business case for change.
